

Xavier Rosario Torres

Experience

2017 – Present

Independent Game Developer (Self-Directed)

Designing and building games independently since middle school, teaching myself programming, 3D modeling, and level design through hands-on projects. This long-term self-driven practice is the foundation for the technical art and game design work featured in my portfolio.

April, 2026 – Present

DoorDash (Delivery Driver)

Deliver food orders on a flexible schedule, managing time efficiently and navigating routes to ensure timely, reliable service while balancing coursework and personal projects.

March, 2024 – October, 2024

Publix Inc. (Deli Associate)

At Publix Inc. I was responsible for providing legendary customer service in a timely and efficient manner. At Publix I was trained to operate in a stressful and tense environment; operating in multiple positions without fail. I was tasked with memorizing company regulations and following them with the goal of efficiently fulfilling customer expectations.

Reference: Marsha, M — Store: (407) 872-7201
